

INTEGRAL POWER AC BATTERY-OPERATED ROOFTOP SYSTEM

**COMFORT AND
RELIABILITY THAT
GO ANYWHERE**

As a global leader in commercial climate control, Bergstrom offers the ultimate versatility so you can create the exact climate system you need. From OEM to aftermarket installations. From extreme heat to extreme cold. From military to forestry to just about any niche vehicle out there. It's comfort and reliability that go anywhere.

INTEGRAL POWER AC SYSTEM

CUSTOM COMFORT

Bergstrom, a global leader in the design and manufacture of climate control systems to the commercial vehicle industry, creates heating, ventilation, and air conditioning (HVAC) solutions to OEM and aftermarket customers across the world that require a flexible and versatile approach to their HVAC challenges. We can find a pre-engineered and fully validated solution from military to construction to just about any niche vehicle out there. It's comfort and reliability that go anywhere.

BENEFITS

- Installation without touching the vehicle engine
- Robust AC system for demanding applications
- Maintains a comfortable temperature inside the cabin

FEATURES

- Digital thermometer (°C or °F)
- 3-speed ventilation
- Low maintenance
- Pre-charged system
- Available in 12V and 24V

PERFORMANCE SPECIFICATIONS

12 Voltage System

- Cooling: 5,100 BTU/hr | 1,5 kW
- Maximum Air Flow: 170 CFM | 290 m³/h
- Electrical Consumption: 55 A/hr

24 Voltage System

- Cooling: 7,000 BTU/hr | 2,1 kW
- Maximum Air Flow: 190 CFM | 320 m³/h
- Electrical Consumption: 45 A/hr

WEIGHT & DIMENSION

Weight:

82.67 lbs | 37,5 kg

Measurement (length x width x height):

26.14" x 30.12" x 8.54"

664mm x 765mm x 217mm

The cooling capacity was determined in the following conditions:

- inside temperature, 90°F (32°C)/relative humidity 50%
- outside temperature, 100°F (38°C)
